i use to love this game but having problems with it for ages i can play all but one jewel quest 111(3)it comes up but when clicked on to play it just does nothing keep taking out tickets for help none foth coming any body got any ideas have uninstalled and reinstalled several times. Excellent little 3 stage shmup. Fun arcade gameplay with a fair but high difficulty. Despite being fairly short, the game has high replayability thanks to achievements and the wide variety of shot-types. There's also steam leaderboards if scoring is your thing. Definitely worth picking up for shmup fans considering the low price.. BEST FREE VR GAME PERIOD 10/10 IGN APPROVED

-short but good and FREEEEEEEE :D. For early access this is outstanding. Devs are really engaged.. The game is too short but I love the art style and the storytelling.

I think it good start. Now time to make the next game :). This is currently the best game that have ever came out, cant wait to hunt down the invisible wizard as the second greatest detective of all time. White Ravenwest liveries are pwetty and make you leet, Mercedes is destroyed by others in its class.

4V8.5 Shame there isn't a "meh" review button

Rack N Ruin is a quite and surprisingly good game that has some problems which prevents this game from being one of better this year I've played and probably one of my favourites this year. Gameplay is fun, because you will kill a lot of different monsters, people and bosses with your fire (your first skill) as you progress on your quest to conquer the world.

<https://pcgamesnnews.wordpress.com/2015/11/14/review-rack-n-ruin/>. Great Game But The Second Makes This pretty much Irrelevant

only buy if you are an achievement hunter. Heart of the House is an okay game.

English is not my first language. So, sometimes I found myself lost with the storytelling. It is very convoluted, and people who don't speak/understand English very well might not be able to enjoy it in its entirety.

Loren and their preference to be referred to as 'them' instead of 'he' or 'she' made me roll my eyes, as it felt very tacked-on and out of place. I don't have a problem with non-binary characters, but when a game lacks any sort of visuals or sound, leaving out whether or not their build is feminine or masculine makes visualizing them that much more difficult, and it honestly breaks the immersion. At some point I gave up and gave Loren the visual identity of Melody from HxH. Whether it was accurate or not to what the author was trying to convey, I did not care.

While I wasn't able to connect with Loren, who also happened to be a romance option, the other romances were some of the best I've ever read. The intimate scenes are damn well written, and I wish more authors were this good at romance. This game is worth playing just for the romance options alone.. Oh boi... hohohohoho.. A-M-A-Z-I-N-G game!. I'll make this short. Soul Calibur 6 is trash and every aspect of the game is under-developed. Online matchmaking is non-existent. Graphics are OK at best. Custom character options are limited and they keep adding weird clothing parts. Reversal Edge, Critical Edge, and an increase in tracking attacks will make you rage quit. The single player content is shallow, lacks rewards, and lazily done (a few voice-over, but mostly text).

I don't think I'd even recommend this game when it's on sale.
